

Which colours can you see in nature? Which part of the plant are they?

Hint: Look at flowers, fruits and seeds and describe the different shades.

Brown

Black

White

Silver

Dark Green

Blue

Green

Yellow

Orange

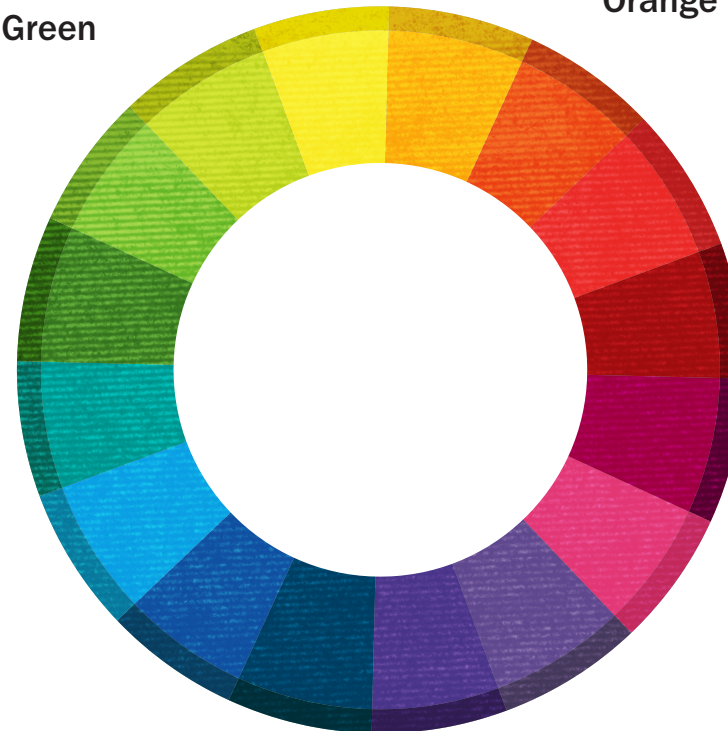

Red

Pink

Violet

Challenge:

What do you think this colour is for: attracting pollinators, capturing sunlight, camouflage or something else?

Key vocabulary:

roots, trunk, branches, leaves, seed, bright, dark, cool, warm

Look carefully and record what you discover

Colour	Part of the plant	What does the colour remind you of?
