

How many minibeasts can you spot? What do you think they are doing?

Hint: Try checking leaf litter, tree bark, flowers and grass.

Ladybird

Snail

Dragonfly

Fly

Butterfly

Caterpillar

Beetle

Spider

Bee

Worm

Challenge:

What do you think the minibeasts eat and what might eat them?

Key vocabulary:

habitat, microhabitat,
invertebrate, predator,
prey, food chain

Look carefully and record what you discover

Minibeast	What does it look like?	Habitat	What is it doing?
